Important Legal Disclosures

GrowthWave Advisors LLC · GrowthWave Capital Division

GENERAL DISCLAIMER

The information contained in this publication is provided by GrowthWave Advisors LLC, a Wyoming limited liability company ("GrowthWave," "we," "us," or "our"), for general educational and informational purposes only. Nothing in this publication constitutes, or is intended to constitute, legal advice, tax advice, financial advice, investment advice, credit repair advice, accounting advice, or any other form of professional advice or recommendation.

By accessing, reading, downloading, or otherwise using this publication, you acknowledge and agree that you do so entirely at your own risk and that you have read, understood, and accepted the terms of this disclaimer in full.

NO PROFESSIONAL ADVICE

This publication does not create, and is not intended to create, a professional-client relationship of any kind between you and GrowthWave Advisors LLC, its owners, officers, managers, members, affiliates, contractors, or any individual associated with the production of this material.

The content provided herein is not a substitute for the advice of qualified professionals, including but not limited to licensed attorneys, certified public accountants, enrolled agents, registered investment advisors, licensed financial planners, licensed mortgage loan originators, licensed real estate brokers, or licensed credit repair organizations. You should always consult the appropriate licensed or credentialed professional before making any legal, tax, financial, investment, credit, or real estate decision.

NO LEGAL ADVICE

Nothing in this publication constitutes legal advice or the practice of law. Any discussion of laws, regulations, statutes, ordinances, court decisions, or legal principles is provided for general informational purposes only and may not reflect the most current legal developments. Legal information is not the same as legal advice, which involves the application of law to your specific circumstances. You should consult a licensed attorney in the appropriate jurisdiction before taking any action based on legal information presented in this publication.

NO TAX ADVICE

Nothing in this publication constitutes tax advice. Any references to federal, state, or local tax laws, Internal Revenue Code provisions, IRS regulations, tax strategies, deductions, credits, entity elections, depreciation methods, or tax planning frameworks are provided for general educational purposes only. Tax laws are complex, change frequently, and vary by jurisdiction. The application of tax law depends on your individual facts and circumstances. You should consult a qualified tax professional — such as a certified public accountant, enrolled agent, or tax attorney — before implementing any tax strategy or making any tax-related decision.

NO FINANCIAL OR INVESTMENT ADVICE

Nothing in this publication constitutes financial advice, investment advice, or a recommendation to buy, sell, hold, or otherwise transact in any security, real property, financial instrument, insurance product, retirement account, or other asset. Any discussion of investment strategies, asset classes, portfolio construction, real estate transactions, financing structures, or wealth-building methodologies is provided for general informational and educational purposes only.

GrowthWave Advisors LLC is not a registered investment advisor, broker-dealer, financial planner, or fiduciary. We do not provide personalized investment recommendations. All investment decisions involve risk, including the potential loss of principal. You should consult a qualified, licensed financial advisor who can evaluate your specific financial situation, risk tolerance, and investment objectives before making any investment decision.

NO CREDIT REPAIR GUARANTEES

Any information related to credit improvement, credit repair, credit optimization, credit scoring models, or credit reporting practices is provided for general educational purposes only. GrowthWave Advisors LLC does not guarantee any specific outcome, credit score improvement, or result from the application of any credit-related information contained in this publication.

Credit repair and credit improvement results vary significantly based on individual circumstances, credit history, creditor practices, credit bureau processes, and numerous other factors beyond our control. No representation or warranty is made that any particular credit outcome will be achieved by following the strategies, techniques, or information discussed herein.

You have the right to dispute inaccurate information on your credit report directly with credit bureaus at no cost. For more information about your rights under the Credit Repair Organizations Act (CROA), the Fair Credit Reporting Act (FCRA), and the Fair Debt Collection Practices Act (FDCPA), consult a licensed attorney or visit the Consumer Financial Protection Bureau at www.consumerfinance.gov.

EARNINGS AND RESULTS DISCLAIMER

Any statements regarding income, earnings, revenue, profits, returns, or financial results — whether expressed or implied — are not guarantees and do not represent a promise or assurance of any particular outcome. Individual results will vary. Your results will depend on many factors, including but not limited to your individual capacity, work ethic, business experience, expertise, level of commitment, market conditions, economic conditions, and factors beyond anyone's control.

There is no assurance that any prior successes, examples, case studies, testimonials, or results referenced in this publication can be duplicated in the future. Any and all forward-looking statements are simply our opinion and thus are not guarantees or promises of actual performance. We make no representation or warranty that you will achieve any particular financial result by using the information in this publication.

ACCURACY AND CURRENCY OF INFORMATION

While GrowthWave Advisors LLC makes reasonable efforts to ensure the accuracy and currency of the information presented, we make no representation, warranty, or guarantee — express or implied — regarding the accuracy, completeness, reliability, suitability, or availability of the information, strategies, recommendations, or related graphics contained in this publication.

Laws, regulations, market conditions, financial products, interest rates, tax provisions, and industry practices change frequently. Information that is accurate at the time of publication may become outdated, incomplete, or incorrect without notice. You are solely responsible for verifying the current accuracy of any information before relying on it.

The Credit Sculpt Series

Three guides. One system. Built for real estate investors who need clean credit and business capital to execute on their next deal.

VOL. 1 — **Available Now**

RE Investor's Guide to Business Credit

The foundation. Understand how business credit is built separately from your personal file, why it matters for real estate investors, and the exact profile lenders want to see before approving significant funding.

VOL. 2 — **Available Now**

FCFM: Fix · Consolidate · Fund · Move

The rescue. High personal credit card debt destroying your score? FCFM legally relocates that debt off your personal credit report and onto business credit — without paying it off first.

VOL. 3 — **You Are Here**

The Zero Percent Playbook

The strategy. Stack $50K–$150K+ in 0% APR business credit cards across multiple lenders in a coordinated application window. Target the right cards, in the right order, at the right time.

A Note from Wilfred Morgan

If you're reading this, you've already done the hard part. Your personal credit score is clean. Your utilization is at or near zero. You have the profile that lenders' automated systems want to see. What most investors miss at this point is that readiness and execution are two different things — and the execution is where most people leave money on the table.

> *"The sequence, the timing, and the 14-day application window are what separate investors who get $50K from investors who get $150K+. The cards don't care how prepared you feel."*

This playbook is a field manual, not a primer. It tells you exactly which cards to target, in what order, in a coordinated application window designed to max out approvals before your utilization reports. The strategy works because most lenders pull your report before the previous balance posts. You're not gaming the system — you're using it the way it was designed to be used by people who understand it.

This is Vol. 3 in the Credit Sculpt Series — the execution volume. Follow the sequence exactly. Then bring us your file.

Wilfred Morgan

Founder & CEO, GrowthWave Capital

growthwavecapital.com

HOW TO USE THIS GUIDE

Before You Read This Playbook

This playbook covers one specific funding tool: 0% APR business credit — the most flexible capital in your real estate investor toolkit.

If you read our Investor's Guide to Business Credit, you learned the philosophy — credit as a tool, not a crutch. You saw the Flywheel. You understood why business credit matters for real estate investors.

This is the execution manual.

Inside, you will find the exact criteria that separate funded investors from denied ones, the step-by-step process to optimize your credit profile, specific lender recommendations with bureau pull data, application sequencing strategies, and reconsideration line phone numbers.

Business funding is not one-size-fits-all. There are dozens of instruments available — SBA loans, revenue-based financing, DSCR loans, hard money, and more. What you are about to read is a playbook for 0% APR business credit specifically, because it requires no established business revenue, no cash flow history, and no collateral.

> **If your profile doesn't qualify today, that doesn't mean you can't get funded. It means we start with Credit Sculpt — then come back to this playbook when you're ready.**

NOT SURE WHERE YOU STAND?
PRE-QUALIFY NOW

THE DATA

What Separates Funded from Unfunded

We analyzed 104 real client profiles. 45 scored 78+ (funding-ready). 59 scored below 50 (not ready). The difference came down to exactly four variables. Nothing else mattered.

FACTOR	FUNDED (78+)	UNFUNDED (<50)
Active Charge-Offs	0 (every single one)	$2,670 avg per client
Active Collections	0 (every single one)	1–4 per client
Utilization	<30% (most <15%)	66–99%+ average
Credit Score	758 avg (699–832)	548 avg (493–617)
Derogatory Debt	$0 total	$277,727 combined
Funding Potential	$5.27M combined	$0 actual approvals

> **THE RULE: Zero charge-offs + zero collections + utilization under 30% + 680+ scores = fundable. Fail any one = automatic denial.**

Seeing yourself in the right column? That does not mean you cannot get funded. It means you cannot get funded yet. Those 59 profiles are not permanently unfundable — they need the right plan in the right order.

START PRE-QUALIFICATION NOW

PHASE 1: MAKE YOUR PROFILE FUNDABLE

Resolve All Charge-Offs

If you have active charge-offs or collections, this is where you start. If your profile is already clean, skip to Phase 2. For real estate investors focused on building portfolios, your personal credit may have taken hits. Before we unlock 0% capital, we clean the slate.

1 Step 1: Resolve All Charge-Offs

Charge-offs are the #1 reason for automatic denial. One active charge-off blocks every premium 0% APR card regardless of your score.

1) Call the original creditor (not the collection agency) and request a pay-for-delete agreement.

2) Offer 30–50% of the balance as a lump-sum settlement. Start low.
3) Get the agreement IN WRITING before you pay. Email or certified mail.
4) If pay-for-delete is refused, settle for "paid in full" or "paid as agreed."
5) After payment, monitor reports for 60 days. Dispute with bureaus if deletion does not appear.

> Expected Impact: +80–120 credit score points per charge-off removed. Timeline: 30–60 days. Settlement: 30–50% of original balance.

Credit cleanup is exactly what Credit Sculpt was built for.

PHASE 1: MAKE YOUR PROFILE FUNDABLE

Eliminate Collections & Bring Accounts Current

2 Step 2: Eliminate All Active Collections

Same approach as charge-offs. Priority: newest first (most score damage), then largest balances.

1) Send a debt validation letter (certified mail, return receipt) within 30 days of first contact.

2) Negotiate pay-for-delete. Collection agencies accept these more often than original creditors.

3) Medical collections under $500 are ignored by FICO 9/10 and VantageScore 3.0/4.0.

4) If past the statute of limitations (3–6 years), you cannot be sued. Do NOT make a payment — it resets the clock.

> Expected Impact: +40–80 points per collection removed. Timeline: 30–60 days.

3 Step 3: Bring All Accounts Current

Any account 30+ days past due suppresses your score every month. Pay the past-due amount immediately, request hardship programs if needed, set up autopay on every account. One missed payment destroys 60–100 points.

> **REALITY CHECK**
>
> If you have active charge-offs, collections, or 90+ day lates, you are 90–180 days away from funding. No shortcuts. Do not apply until resolved — premature applications add hard inquiries, guarantee denials, and make future approvals harder.

PHASE 2: OPTIMIZE FOR MAXIMUM FUNDING

Crush Your Utilization & Maximize Limits

Your derog slate is clean. Now you are maximizing approval odds and credit limits. Our funded clients averaged <15% utilization. The unfunded averaged 66–99%.

4 Step 4: Crush Your Utilization

Target: Under 10% on EVERY individual card. Under 15% overall.

1) Pull current balances and statement close dates for every revolving account.
2) Calculate the exact dollar amount to bring each card under 10%.
3) Pay 3–5 days BEFORE statement close date. Balance at close is what reports to bureaus.
4) For AU cards: coordinate with the primary cardholder or remove yourself if balance is high.

5) After paying down, request credit limit increases on every card with 6+ months history.

> Expected Impact: +20–60 credit score points within 30–45 days. This is the fastest win available.

5 Step 5: Request Credit Limit Increases

Free. No-inquiry via online portals. Permanently improves utilization. Discover, Capital One, and Amex are the most generous. Chase and Citi are conservative. Request every 6 months on every card.

> **Every point of utilization reduction translates into higher credit limits on your business cards — more capital for your next deal.**

PHASE 3: EXECUTE APPLICATIONS

Prepare Your Business Documentation

For real estate investors, your LLC is likely already established. Verify that your EIN, state registration, business bank account, and 411 listing all match exactly — inconsistencies trigger manual review and delays.

6 Step 6: Verify Entity Documentation

Before you submit a single application, confirm every detail matches across all sources. Lenders cross-reference these instantly.

1) EIN Letter (IRS CP 575 or 147C). Must match your LLC name exactly. No DBAs on initial applications.

2) State registration current and active. Check your Secretary of State website — many investors let this lapse.

3) Business bank account open 30+ days with consistent deposits. Chase, US Bank, or a local credit union work best.

4) Business phone number listed on 411/directory assistance. Use a dedicated Google Voice number if needed — it takes 48 hours to propagate.

5) Business address that is NOT a PO Box. Use your registered agent address or a virtual office service.

> **CRITICAL MATCH**
>
> Your business name, EIN, bank account, address, and phone number must match EXACTLY across all documents and listings. Even minor discrepancies (LLC vs. L.L.C.) can trigger manual review or automatic denial.

PHASE 3: EXECUTE APPLICATIONS

Application Cadence & Sequencing

This is where most DIY applicants destroy their funding potential. The order and timing of your applications directly determines your total approval amount.

> **The rule: 2–3 applications per week. 4–6 total. Complete all applications within a 14-day window. After that, stop and wait for results.**

7 Step 7: Apply in the Right Order

1) Chase FIRST — always. Chase has the 5/24 rule: if you have opened 5+ new credit accounts in the last 24 months, automatic denial. Apply before anything else.

2) American Express second. Amex is generous with limits and does a soft pull for pre-qualification. Check offers at americanexpress.com/pre-qualified.

3) Capital One third. Use the CardMatch tool at creditcards.com/cardmatch for pre-qualified offers before applying blind.

4) Fill remaining slots with Citi, US Bank, or Barclays depending on your bureau strength.

Application Field Guidance

Business revenue: report actual revenue or projected first-year revenue for new entities. Business type: "LLC" or "Sole Proprietorship." Years in business: use your entity formation date. Annual business income: be accurate — inflated numbers trigger fraud reviews.

> Pre-qualification tools save hard inquiries. Always check Chase pre-approval (chase.com/prequalified), Amex pre-qualified offers, and Capital One pre-approval before submitting formal applications.

PHASE 3: EXECUTE APPLICATIONS

Reconsideration Lines

Denied? Not yet. Reconsideration calls overturn 30–40% of initial denials. Call within 30 days of denial, reference your application ID, and make your case directly to an analyst.

LENDER	RECON NUMBER	BEST TIME TO CALL
Chase	**1-888-270-2127**	Weekday mornings, ask for business analyst
American Express	**1-800-567-1083**	Weekdays, request credit analyst
Capital One	**1-800-625-7866**	Weekdays, reference app ID
Citi	**1-800-763-9795**	Weekdays AM, ask for reconsideration dept
Bank of America	**1-866-458-0460**	Weekdays, patience — long hold times
US Bank	**1-800-947-1444**	Weekdays, ask for business credit review
Barclays	**1-866-408-4064**	Weekday mornings preferred

What to Say on a Recon Call

1) State your name and reference your application ID or the last 4 of your SSN.
2) Ask why the application was denied. Listen — the analyst will tell you what triggered the decline.

3) If it was inquiries: explain you were rate-shopping for business expansion.
4) If it was revenue: clarify your business model. Real estate investors have non-traditional income.

5) Ask directly: "Is there anything I can provide to move this to approval?"

> **Our funding specialists handle every application, every recon call, and every verification request. Clients average $85K+ in total 0% APR approvals.**

PHASE 4: DEPLOY CAPITAL

Deploy Capital for Real Estate

Generic credit guides teach you to fund a marketing agency. Here is what changes when you are deploying capital into income-producing real estate.

Meet Minimum Spend Through Deal Activity

Use new cards for legitimate deal expenses: materials, contractor deposits, property management software, marketing for tenant acquisition, insurance premiums, and utility setup fees. Every dollar of minimum spend gets met through actual deal execution.

Track 0% Windows Against Your Deal Pipeline

Align your funding cycle with your renovation timeline. If your 0% intro period is 15 months and your BRRRR cycle is 6–9 months, you have a built-in buffer. Refinance out before promotional rates expire. Never carry a balance past the intro period.

The BRRRR + Business Credit Stack

This is the repeatable deal machine. Hard money covers acquisition. Business credit at 0% covers rehab materials, holding costs, and gap funding. DSCR refinance pays off both. Repeat with higher limits each cycle as your credit profile strengthens.

> **The stack: Hard money (acquisition) + 0% business credit (rehab + gap) + DSCR refinance (permanent financing) = repeatable wealth engine.**

> Example: $200K value-add deal. $15K from 0% business credit covers earnest money and initial holding costs. Hard money covers acquisition. $40K on 0% cards funds rehab materials. DSCR refi at stabilization pays everything off — net cost of capital: $0.

YOUR GROWTH TRAJECTORY

Scaling Timeline

Business credit is not a one-time event. It is a compounding system. Here is what the progression looks like for real estate investors who execute consistently.

TIMELINE	CREDIT MILESTONES	RE INVESTOR MILESTONES
Month 1–2	Profile optimized, first round of applications submitted, $50K–$100K approved	First deal funded with business credit bridge
Month 2–4	Cards activated, minimum spend met through deal expenses, CLI requests submitted	Rehab in progress, deploying 0% capital into materials and holding costs
Month 6–12	Second round applications, inquiry removal, credit limits doubled via CLIs	2–3 deals in various stages, CLI increases expanding your capacity
Month 12–24	Separate business credit profile established, $200K –$500K total capacity	DSCR lending relationships established, 3–5 deals annually, full Flywheel active

This is not speculation. This is the trajectory we see consistently with investors who follow the system and let the Flywheel compound.

Month 12 reality check: investors who complete Phase 1–3 correctly and execute two rounds of applications typically access $150K–$300K in total business credit capacity. Combined with DSCR lending, this funds 3–5 deals per year.

REFERENCE GUIDE

Lender Reference Guide

Tier 1 — Apply First (Highest Limits, Best Terms)

CARD	0% PERIOD	LIMIT RANGE	BUREAU	NOTES
Chase Ink Preferred	12 mo	$5K–$50K	EX	5/24 rule — apply first
Chase Ink Unlimited	12 mo	$5K–$30K	EX	1.5% cashback, no AF
Amex Blue Business+	12 mo	$10K–$50K	EX	Generous with limits
Capital One Spark	12 mo	$5K–$50K	All 3	Pre-qual via CardMatch

Tier 2 — Fill Remaining Slots

CARD	0% PERIOD	LIMIT RANGE	BUREAU	NOTES
Citi Diamond Preferred	21 mo BT	$3K–$20K	EQ	Long BT window, lower limits
US Bank Business Cash	15 mo	$5K–$25K	TU/EX	Cash rewards, no AF
Barclays Business AA	15 mo	$5K–$25K	TU	Good secondary option
BofA Business Advantage	9 mo	$5K–$30K	EX	Relationship bonus with BofA banking

Bureau Pull Quick Reference

EX = Experian • EQ = Equifax • TU = TransUnion. Strategy: Apply to your strongest bureau first. If your Experian score is highest, lead with Chase and Amex. If TransUnion is strongest, lead with Barclays and US Bank.

> **These are the exact cards and sequencing strategies our funded clients use. The difference between $30K and $150K in approvals is not your score — it is your strategy.**

YOUR 13-WEEK PLAN

Master Timeline

Clean profile? Compress weeks 1-4 into days. If you need credit cleanup, follow this full timeline — shortcuts guarantee denials.

WEEK	ACTION	MILESTONE
1–2	Pull reports, identify derogatories, send disputes	Cleanup initiated
3–4	Settle charge-offs, pay-for-delete collections	Derog slate clean
5–6	Pay down utilization, request CLIs on all cards	Utilization under 15%
7	Verify all business docs (EIN, state, bank, 411)	Entity ready
8	Check pre-qualification tools (Chase, Amex, Cap One)	Pre-qual confirmed
9	Submit Chase applications first (5/24 rule)	Round 1 submitted
10	Submit Amex + Capital One applications	Round 1 complete
11	Recon calls for any denials, provide documentation	Approvals maximized
12	Activate cards, meet minimum spend via deal expenses	Cards active
13	Review total capacity, plan second round (month 6)	Funding deployed

> **13 weeks of disciplined execution. Or one phone call to our team — we handle every step.**

Lenders and practices to AVOID: Credit repair mills (they dispute everything and get flagged), "shelf corporations" with aged EINs (lenders verify), personal guarantor workarounds, and any service promising guaranteed approvals.

YOUR COMPETITIVE ADVANTAGE

The Real Estate Investor's Edge

Generic business credit guides teach you to fund a marketing agency. Here is what changes when you are deploying capital into income-producing real estate.

1 Gap Funding a Value-Add Deal

$200K acquisition. $15K from a 0% business credit line covers earnest money deposit and 60 days of holding costs while your hard money loan closes. Without it, you lose the deal to a cash buyer. Cost of capital: $0.

2 Stacking Credit + Hard Money on a Rehab

Hard money covers the $180K acquisition. $40K on 0% business cards funds materials, contractor deposits, and permits. Total rehab budget: $220K. Your out-of-pocket before refinance: $0 in interest on the credit portion.

3 Bridging a DSCR Refinance Delay

Your stabilized property needs 60-90 days to season before DSCR refinance. Business credit line covers carrying costs — mortgage, insurance, property management — at 0% while you wait. When the refi closes, pay off the line completely.

> **Every scenario above connects back to the Flywheel. Credit Sculpt builds the profile. GrowthWave Capital unlocks the funding. GrowthWave Properties deploys it into deals. Repeat.**

GrowthWave CAPITAL

THE SYSTEM

The Investor Success Flywheel

Your credit profile opens the door to business capital.

That capital funds real estate deals. Those deals build wealth.

The Flywheel accelerates with every cycle.

Ready to Get Funded?

Pre-qualify in 3 minutes. No hard credit inquiry. No obligation.
Our team handles every step from profile optimization through final funding.
